

## SUICIDE UNHEED FROM THE BENCH.

Magistrate Wentworth Believes in It in Certain Contingencies.

DESPITE THE PENAL CODE.

"When a Man Is Through with This World Let Him Shuffle Off," Said His Honor.

"I believe in suicide. When a man is through with this world let him shuffle off. When I am no longer of use to myself, that is what I intend to do."—Statement of Magistrate Wentworth in Harlem Police Court yesterday in discharging a boy accused of attempting suicide.

### Penal Code of the State of New York.

**Title IX—Chapter I—Suicide.**  
Section 178—Every person guilty of attempting suicide is guilty of felony, punishable by imprisonment in a State prison not exceeding two years, or by a fine not exceeding \$1,000, or both.

Section 179—Any person who willfully, in any manner, encourages, advises, assists or abets another person in attempting to take the latter's life, is guilty of a felony.

Generally the magistrates disallow would-be suicides with admonitions not to do it again. They discourage the suicide habit. But Magistrate Wentworth has his own peculiar ideas about it.

The accused in this case was Matthew Mohr, aged sixteen, who had only recently come from Germany. Through relatives here he got a job as assistant to a baker in a small Brooklyn shop, but lost it. Thereupon he bought a bottle of carbolic acid and hired a room in a hotel at One Hundred and Fifteenth street and Third avenue. He retired to his room about 6:30 o'clock Sunday evening and wrote a letter to his sister, Mrs. Kate Jaeger, of No. 1485 Amsterdam avenue, with whom he had been living. In it this sixteen-year-old boy declared that there was nothing more in life for him, because he was out of a job.

After writing the letter he turned on the gas, but forgot to take the carbolic acid, and help came in time to blow an ambulance surgeon from the Harlem Hotel to rescue him up.

Magistrate Wentworth beamed on the suicidal boy when he was arraigned in court.

"I believe in suicides," said Magistrate Wentworth, speaking as a Magistrate, "and I believe in a law that characterizes an attempt at suicide as a felony. When a man is through with this world, let him shuffle off. When I am no longer of use to my own or myself that is what I intend to do."

Following this sage advice to a morbid boy he discharged him. Then he fined a man who had a family to support and had so far forgotten his obligation as to get drunk on Sunday, after having delivered to his wife his week's wages on Saturday night.

Magistrate Mohr, much encouraged in his designs on his youthful existence, was taken away by his family, who said that the boy would have been supported had he been out of work for a year.

### TRAM ROAD IN THE KLONDIKE.

Over Ten Dogs Draw 2,000 Pounds of Freight on a Sled.

Tacoma, Wash., Feb. 13.—Advices from the Klondike are that the first dog tram road is in successful operation. It runs from Dawson to the forks of Edgemoor and Bonanza creeks, and thence up the Bonanza, a distance of nearly twenty miles. It costs \$20,000 to build. The company charges one cent a pound for freight. Ten dogs pull a sled of 2,000 pounds.

### A Plague of the Night.

ITCHING PILLS AND OTHER RECTAL TROUBLES EASILY CURED BY A NEW AND SAFE METHOD.

### A Remarkable Number of Cures Made by the Pyramid Pile Cure.

About one person in every four suffers from some form of rectal disease. The most common and annoying is itching piles, indicated by warmth, slight moisture and intense, uncontrollable itching in the parts affected. The usual treatment has been some simple ointment or salve which sometimes gives temporary relief, but nothing like a permanent cure can be expected from such superficial treatment.

The only permanent cure for itching piles yet discovered is the Pyramid Pile Cure, not only for itching piles, but for every other form of piles, blind, bleeding or protruding. The first application gives instant relief and the continued use for a short time causes a permanent removal of the tumors or the small parasites which cause the intense itching and discomfort of itching piles.

Many physicians for a long time supposed that the remarkable relief afforded by the Pyramid Pile Cure was because it was supposed to contain cocaine, opium or similar drugs, but such is not the case. A recent careful analysis of the remedy showed it to be absolutely free from any cocaine, opium, or in fact any poisonous, injurious drug whatever.

For this reason the Pyramid Pile Cure is probably the only pile cure extensively recommended by physicians, because it is so safe, so prompt in the relief afforded and so far as known the only positive cure for piles except a surgical operation.

In one year the Pyramid Pile Cure has become the best known, the safest and the most extensively sold of any pile cure before the public.

Nearly all druggists now sell it at 50 cts. and \$1 per package.

Address the Pyramid Pile Co., Marshall, Mich., for book on cause and cure of piles and also hundreds of testimonials from all parts of the United States.

If suffering from any form of piles ask your druggist for a package of Pyramid Pile Cure and try it to-night.

## BURGLES CHASE IN THE SNOW.

Three Captures Reward the Cold Vigil of Two Detectives.

ONE MAN SHOT IN THE ARM

Residents of Clinton Street and Vicinity Now Hope to Rest More Secure of Nights.

No blizzard is stout enough to interfere with the industry of the burglar. In fact, he believes that a blizzard helps him, that it keeps the police off their feet and that it keeps the residents of the city so busy that they do not look for him. This was the case in the case of three burglars who were caught yesterday morning.

The detectives were Lorrigan and Moran, of the Twenty-third street station. They were called to a building at No. 82 Clinton street, on account of a rumor which had reached the station house that a robbery was to be committed there. Frequent burglaries in the vicinity recently have served to put the policemen on their mettle, and Lorrigan and Moran determined to get somebody if they did not freeze to death in the attempt.

The detectives hid in a hall at No. 76 Clinton street, from which, by judicious stretching of their necks, they could command a view of the front of the threatened house. This hallway also protected a means of egress from the back yard of No. 82.

After a long wait they heard a noise in the rear of No. 81 Clinton street. They went across and entered a hallway just as two men, one of them carrying a bag, dashed out of an adjoining hallway.

At the station house the men said they were Charles Miller, of No. 47 Allen street, and Joseph Marks, of No. 37 St. Mark's place. Miller is also known as "Joe Goodman."

After recovering their wind the detectives went back to No. 81 Clinton street to see what their captives had been doing. They found that the iron bars protecting the window of a tailor shop had been cut away, but no entry had been made. Retreating to the street they caught sight of two men running away in the storm. The third detective, who was in the rear, fired at them. One of the men was caught by Policeman Livingston in Broome street.

The other got away, but he was caught by the second detective, who was in the rear. The man who was caught was identified as one of Lorrigan's bullets had reached him.

The captured man gave his name as Max Kessler, of No. 67 Kingston street. He was looked up, and it was not until later in the morning that it was discovered that a bullet from Kessler's revolver had struck the arm of the man who was caught by the second detective, who was in the rear.

The man who was caught by the second detective was identified as one of Lorrigan's bullets had reached him.

The man who was caught by the second detective was identified as one of Lorrigan's bullets had reached him.

The man who was caught by the second detective was identified as one of Lorrigan's bullets had reached him.

The man who was caught by the second detective was identified as one of Lorrigan's bullets had reached him.

### DELENBAUGH FOUND

GUILTY, AS CHARGED.

Cleveland (Ohio) Jurist Condemned for Putting an "O. K." on the Manning Divorce Suit.

Cleveland, Ohio, Feb. 13.—The Circuit Court this afternoon found Judge P. E. Delenbaugh guilty as charged in the third specification. The sentence of the court was not announced, and it is understood will not be made public until after the trial of State Senator Burke, which will begin tomorrow.

The third specification in the charges against Delenbaugh is in connection with the "O. K." which he, as judge, placed on the Manning divorce decree, and in which it was alleged he was also interested as counsel.

### MUST ANSWER FOR

DISARMING COLSON.

The Kentucky Colonel Was Left with Only His Fists to Defend Himself.

Anniston, Ala., Feb. 13.—Colonel Colson, of the Fourth Kentucky, who was wounded in an affray Saturday night, is doing well.

Lieutenant Scott has given bail. Lieutenants McKay and Phelps, of the Fourth Wisconsin, will be arrested for assault and battery on warrants sworn out by Lieutenant Wilbert. They disarmed Colonel Colson, who was struck in the face several times.

General Frank, commanding Camp Shipley, has ordered an inquiry, but it is understood that the War Department will not interpose any objection to the civil authorities dealing with the case.

### PARTIDGE ANNOUNCES

ANOTHER RESIGNATION.

Jacob Snell, Superintendent of Repairs of Section 3 of Erie Canal, Steps Down and Out.

Albany, Feb. 13.—Superintendent of Public Works Partridge today announced that Jacob Snell, superintendent of repairs for section 3 of the Erie Canal, had resigned. He denies any intention of asking for the resignation of the superintendent, but he thinks too much money has been expended for material and is making a careful search for any vouchers.

In order to judge the qualifications of the section superintendents he is making their resignation as rapidly as possible. He intimates that there may be some who don't fully appreciate the duties of their offices.

### PROPRIETOR WAS ABSENT.

Sixth Attempt to Burn a Hotel Causes His Son's Arrest.

Gouverneur, N. Y., Feb. 13.—A sixth attempt has been made to burn the Russell House, in Russell. The proprietor is absent. His son, R. Richardson, has been arrested.

## ALGER CALLS ON GREEN GOULD.

Secretary of War in Person Thanks Her for Her Patriotic Services.

DEFENDS HIS DEPARTMENT

The Manager of Any Great Business, He Says, Will Be Disappointed in Certain Men.

Secretary of War Alger came here Sunday with the intention of inspecting the transport shipyard now being at a Brooklyn dock, under the supervision of the Brooklyn Navy Yard. He was accompanied by Miss Gould, who is the daughter of the late General Gould. This morning, however, he stayed at the hotel and called on Miss Helen Gould.

Miss Gould was told by Secretary Alger that the Administration was deeply grateful to her for aid she had rendered the soldiers during and after the war. She modestly replied that she was glad to have been of service.

The Secretary of War was busy during the afternoon. Colonel Amos Kimball, who was made temporary Chief Quartermaster of the Department of the East yesterday, had arranged for the care of troops ordered here from the West to embark on the transport Sheridan.

The eight companies of the Twelfth Infantry who left Jefferson Barracks at noon Sunday arrived at Graton, Pa., yesterday at noon. Reports on the Sheridan not being completed, Colonel Kimball made arrangements to have the tourist cars in which the men are travelling sidetracked on their arrival in the Pennsylvania yards in Jersey City and be taken to the West by steam until the troops could be moved.

Similar arrangements had been made for the movement of a battalion of the Seventeenth Infantry, which had been ordered from Columbus, Ohio. The railroad people guaranteed that they would keep the cars warm as long as at all times.

This plan did not meet the approval of the Secretary of War. He ordered the Columbus troops back to their barracks, although they had already started for this city, and issued orders stopping repair on the Sheridan and providing for the transfer of the troops from St. Louis direct from Jersey City to the transport on their arrival, and the departure of the Sheridan.

He delayed at least two hours after the troops had started, and the date originally for sailing.

In a talk with reporters the Secretary of War devoted much time and conversation to a defense of his department against newspaper attacks.

"In spite of careful effort," he said, "some things will go wrong. I saw the difficulty of my work and I put all my mind into it. Sometimes the manager of a great business will find that men and other concerns which he has examined closely and considered to be reliable will disappoint him."

The attention of Secretary Alger was called to a paragraph in the report of the War Investigation Commission, which asserts that "there was lacking in the general administration of the War Department during the war a complete grasp of the situation which was essential to the highest efficiency and discipline of the army."

He refused to discuss this, saying that he had not read the whole report. He also refused to discuss that portion of the report which indicated that the Secretary of War, when asked to compare the campaigns of Santiago and Manila, said there could hardly be any comparison made.

He praised General Shafter and General Otis, but said that General Shafter had the greater odds against him.

"I do not mean to belittle anything General Otis has done," he said, "but his situation cannot be compared to that at Santiago. He was in the rear, tracking, and in Manila we were attacked."

### SECRETARY GAGE LOOKS

TO NEXT SESSION.

He Has No Doubt That Action Will Then Be Taken to Retire the Greenbacks.

Chicago, Feb. 13.—Secretary of the Treasury Lyman J. Gage and Mrs. Gage were in Chicago yesterday to attend the funeral of Dr. J. H. Etheridge.

Before leaving for Washington to-day Secretary Gage said, in answer to questions:

"Financial reform is neither dead nor asleep. I do not look for action at the present session of Congress, but I have no doubt that the next session will give effect to the recommendations in regard to the retirement of the greenbacks."

He said that the Army bill at its present session there will certainly be an extra session.

### WORKING ON BRAINS.

Food Specialist Brings out a Novelty.

A food expert at Battle Creek, Mich., connected with the Postum Cereal Co., Ltd., has produced a food especially intended for rebuilding the brain. It is a well known fact among physicians that examination of perspiration and urine will tell whether the individual has been actively using the brain or not.

Brain work exhausts the phosphates which appear in the excreta above mentioned. Administration of inorganic phosphorus or phosphates does not readily supply the waste, for nature demands that phosphates be made up and blended in food which she furnishes. Advantage has been taken of this knowledge and a scientific selection of part of the grain has been made, and these have been put through mechanical processes parallel to the processes through which food is passed in its management by the human digestive organs.

Therefore the new food is not only ready to serve without cooking, but it has passed through the process where the starches have been changed to grape-sugar, and that with the proteins, organic phosphates, etc., are at once ready to be quickly absorbed and turned to use in vitalizing and nourishing the parts of the body like brain, solar plexus, and the delicate nerve centers.

The new food has been given the name of Grape-Nuts, and far from being a "Cereal Food," it is a "Brain Food," of anything of that sort, it is an original, sweet novelty, charming to the athlete, brain worker, epicure, or invalid.

Grape-Nuts can be had of grocers, and a trial dish for breakfast will be found a pleasant experience.

## SUICIDAL SUCCESS.

The "Shining Lights" of Self Destruction.

It may be truthfully said that the majority of men and women do not live up to their allotted time. It may be said with equal truth that these people are suicides. They destroy themselves. They do so in spite of warning and advice, in spite of the teachings of observation and experience. The whole situation is portrayed in the illustration in this article. There is an industrious man busily sawing away at the limb of a tree on which he sits. His purpose is to cut the limb from the trunk. But as he sits on the outer

became all run down, nerves were out of order and stomach out of order. I wrote to Dr. Pierce for advice. He said I had general debility, and advised Dr. Pierce's Golden Medical Discovery, and, thanks to you for your advice, I used six bottles; and since I stopped taking it, about one year ago, I have not taken any medicine of any kind, and have been able to work every day. My appetite is good, I can eat three square meals a day, and I do not feel that miserable burning in the stomach after eating. My blood and nerves are in good shape, and well-in fact, I think I am in pretty good running order."

### WOMEN NEED IT.

It's the same thing with women as with men. Women are just as apt as men to take more out of their bodies in a day's work than they can put back in food and rest. That means a daily overdraw of strength which some day results in physical bankruptcy. It's like this: There's a woman whose husband has left her five hundred dollars insurance. But one month she can't quite make out with her earnings and draws a little from the bank. And the next month the earnings don't come up to the requirements of living and she draws a little more money. And so it goes on until all that surplus is gone; can you tell what is going to happen the next month when the earnings don't quite pay the living expenses? The woman is going a little hungry. And when she has gone a little hungry a few months, still keeping up her day's work, she's going to collapse. She hasn't put back into the body what she has used up in its daily labor. To such a woman Dr. Pierce's Golden Medical Discovery comes as a God-send. She is astonished at its strength producing qualities.

"I took four bottles of Dr. Pierce's Golden Medical Discovery and one of 'Pelle's,' and I could eat anything I wanted, so I thought I would not take any more for a while and see if I was cured," writes Mrs. Julia E. Deal, of Oswego, Ireland Co., N. C. "I have not taken any medicine now for four months. I can eat anything I want and have not sick a day since I took your medicines."

These are real cures. The imaginary cures of many medicines come only from opiates and stimulants. In the one the nerves which cry out for food are drugged with what is called "nervine," or "nerve-food," but which is in reality nerve destruction. In the other, "whiskey medicines."

or medicines heavily loaded with alcohol, stimulate the patient and produce an effect similar in kind though different in degree, to that sought by the inebriate in beer or whiskey. It is of such "medicines" that "The Voice," the great temperance organ of the country, says in a recent issue:

"In many patent medicines which are largely consumed throughout the country, by all classes of people, there is a percentage of alcohol which puts them on a level with beer, rum and whiskey as intoxicants. It is safe to affirm that they are medicines in name only. Their chief value lies in their alcoholic effect as a stimulant. In fact, those who know attribute the benefits ascribed to this class of medicines wholly to the stimulative effects of the alcohol they contain."

The results which are produced by the use of "Golden Medical Discovery" are genuine. This medicine contains no alcohol, whiskey or other narcotic in its composition.

### A GREAT TRUTH.

The action of Dr. Pierce's Golden Medical Discovery is strictly scientific. The cause of collapse or nervous prostration is usually not that enough food is not consumed to provide adequate nutrition for the body, but that the stomach and allied organs of digestion and nutrition have become so weakened that they cannot extract the nourishment from the food provided and distribute it to the various organs in proper proportion. It is the same with sleep. Nature is very elastic. She will accommodate herself to a man's habits. But the trouble with the man whose stomach is out of order is that his sleep is restless, broken by dreams, and does not refresh him. The first thing that "Golden Medical Discovery" does is to "strengthen out" the stomach. It begins by cleansing it from impurities. It carries this cleansing operation on to the blood which has been corrupted by the foul stomach. It carries away the waste and poisonous matter which feeds disease. Side by side with this cleansing process a strengthening process goes on. The stomach, with the organs of digestion and nutrition, is

strengthened and enabled to perfectly extract the elements of nutrition from the food provided. The action of the blood making glands is increased and the body is enriched by more blood and pure blood. With the strength thus obtained the body throws off disease, and regains a condition of robust health. The proof of the strength restoring power of "Golden Medical Discovery" is evidenced by the fact that in half a million cases it has cured ninety-eight per cent of all who have used it.

Write to Dr. Pierce if you are sick, doubtful and discouraged. You can consult him by letter absolutely without charge. Every letter is regarded as strictly private and sacredly confidential and all answers are mailed in closely sealed plain envelopes containing no advertising or other printed matter upon them. Write without fear as without fee.

### DON'T BE DECEIVED.

Some dealers who find a little more profit in selling a substitute may offer you a "just as good" medicine in place of Dr. Pierce's. If you accept it you are bartering your common sense and intelligence to please a dealer who does not seek to please you, but seeks only to make a little extra profit out of your trade for his own benefit. Protect your pocket and your health by declining all substitutes for "Golden Medical Discovery."

### SAVES MONEY.

It would be interesting to figure out how many dollars in doctor's fees would be saved by the general use of Doctor Pierce's Common Sense Medical Adviser. One would think it ought to average in a long life a dollar for every page, and there are 1008 pages in the book. If the saving were only one-tenth of such a sum, the book would be worth any one's purchase. What is to be said then when the book is as good as the doctor? This book absolutely free, asking of the recipient stamps to defray the cost of postage only. Send 21 one-cent stamps for the paper-covered book, or 31 stamps for the cloth-bound edition. Address Dr. R. V. Pierce, Buffalo, N. Y.
